

STOVE REPAIR TIPS

Electric - If your burners are not heating...

Make sure they are sitting straight in their proper positions.

Electric - If your oven is not heating...

Make sure the clock is set on manual cycle and not the automatic time bake cycle.

Gas - If the top burners are not lighting...

Wipe off the burner with a hot, damp rag and then dry completely.

Gas - If your oven is not heating...

1. Make sure the clock is set on the manual and not the automatic cycle.
2. Raise up the top and keep the area clean and free of grease build-up.
